EDUCATION

Fulbright University Vietnam, HCM, Vietnam.

Bachelor of Arts, June 2025

Major: Economics

Relevant Coursework: Microeconomics Analysis, Macroeconomics Analysis, Dynamic Macroeconomics, Economics of Education, Research Methods & Statistics.

Thesis: The Impact of School Accessibility on Enrollment: Empirical Evidence from Vietnam.

TEACHING EXPERIENCE

Teaching Assistant, Fulbright University Vietnam, HCM, Vietnam, September 2023 – May 2024.

Facilitated in-class discussions on core economic concepts. Helped students prepare for exams and assignments by reviewing foundational theories in microeconomics. Analyzed and visualized data from class experiments to extract insights. Responsible for grading and providing feedback on students' homework.

RESEARCH EXPERIENCE

Undergraduate Thesis, Fulbright University Vietnam, HCM, Vietnam, September 2024 – May 2025.

The Impact of School Accessibility on Enrollment: Empirical Evidence from Vietnam.

Conducted empirical analysis using VHLSS and Vietnam Statistical Yearbook data at the provincial level. Applied panel data methods (OLS and two-way fixed effects) to study the impact of school accessibility on enrollment. Cleaned, merged, and analyzed large-scale datasets in Stata and Excel; visualized findings for academic presentations.

PROFESSIONAL EXPERIENCE

Market & HR Consultant, Interpool Personal GmbH / Kärcher, HCM, Vietnam, August 2024 – July 2025.

Conducted 5+ research studies on salary benchmarks, industry trends, and competitor insights to support data-driven decision-making. Built and managed a database of 1,000+ candidate profiles; tracked and analyzed hiring data to improve recruitment efficiency.

Operations & Research Intern, Sunrise Events Vietnam, HCM, Vietnam, September 2023 – May 2024.

Analyzed questionnaire data to improve athletes's experience at large-scale triathlon events. Researched cost-effective logistics solutions to optimize event execution and budgeting.

SKILLS

Technical: Panel Data Econometrics, Causal Inference, Data Analysis

Programming: Stata (Basic), Python (Basic), SQL (Basic),

Software: Microsoft Excel (Intermediate), Power Query (Intermediate), Adobe Illustrator (Intermediate), Adobe Photoshop (Intermediate)

Languages: Vietnamese (Native), English (Proficient), Chinese (Basic)

OTHERS ACTIVITIES

Winner of the Bitis Case, SUTD x FUV Hackathon (a collaboration between Singapore University of Technology and Design & Fulbright University Vietnam), HCM, Vietnam, August 2024.

Collaborated with a team of six to conduct life cycle analysis and market research, proposing a sustainable shoe design to help Biti's extend their product lifespan

Art Director, Foreign Language Specialized School's Community Club, Hanoi, Vietnam, August 2019 – July 2020.

Coordinated field trips to visit children at the Social Protection Center. Led media campaigns and organized two music events, raising a total of \$4,000 for patients at the National Institute of Hematology and Blood Transfusion in Hanoi
